PROMINENT ADVANTAGES.

THE ADDITIONS on Ordinary Policies, as at 31st December 1853 and 1860, were so high as at the rate of **£1, 15s.** for each year, for every £100 assured, *not only on the original sum in the Policy, but also on Additions*, which are accumulated at each Septennial Investigation. The practice of the Society is to provide, for Members dying between the investigations, similar Additions at the rate of 1½ per cent., for each year, and it appears from the Chairman's speech at last Annual Meeting there is every reason to anticipate that, at next Investigation, as at 31st December 1867, this Bonus at all events will be maintained.

RATES OF POSTAGE.

INLAND LETTERS.*

The rate of postage to be prepaid is one penny for every half ounce or fraction of half an ounce.†

As a general rule, the postage, if not paid in advance, is double the foregoing; and if the payment in advance be insufficient, double the deficiency is charged. An inland letter, for example, weighing more than half an ounce and not exceeding one ounce, if bearing a penny stamp only, is, on delivery, charged twopence. The unpaid *additional* postage on re-directed letters, however, is not doubled, being the same as if such postage were prepaid.—See page 74.

COLONIAL AND FOREIGN LETTERS.

The rates of postage on letters to foreign countries and the colonies are entered in the Table of Colonial and Foreign Postage, at page 64.

ADDRESSES TO THE QUEEN AND PETITIONS TO PARLIAMENT.

Petitions and addresses to Her Majesty, forwarded direct, are exempt from postage; and such petitions and addresses, as also petitions to either House of Parliament, if sent to a member of either House, are likewise exempt, provided they do not weigh more than two pounds, and are without covers, or are in covers open at the sides. No letter, or other enclosure, however, must be inserted, and if one be found, such enclosure, unless it bear the proper number of postage stamps, will be charged as an unpaid letter.

NEWSPAPERS & OTHER PERIODICAL PUBLICATIONS BEARING THE NEWSPAPER STAMP.

Although provision is made for forwarding newspapers, books, and money through the post, no one is compelled so to forward these articles; the exclusive privilege of the Post Office extending only to letters.

All periodicals, including newspapers, published in the United Kingdom, at intervals not exceeding thirty-one days, and which bear an impressed stamp or stamps denoting the stamp duty (of the kind formerly confined chiefly to newspapers), may, under the following regulations, be sent and re-sent through the post, within the United Kingdom, free of postage:—

---

* Inland Letters are those which pass between places in the United Kingdom, including the Isle of Man, the Orkney, Shetland, Scilly, and Channel Islands.

† If the weight be exceeded to the smallest extent, even though the balance be merely turned, the letter becomes liable to a higher postage. The same rule applies to Letters going abroad. To provide, therefore, for error in scales, &c., it is well to allow a little margin, or to pay the postage of the next greater weight.

1st. Such publications are subject to the same restrictions as to the number of sheets and superficial extent as were formerly applicable only to newspapers properly so called. These restrictions are shown in the following Table:—

Amount of Stamps impressed on the Publication.	Maximum Number of Sheets.	Maximum Superficial Extent of Letterpress on One Side.
One Penny.	Two.	2,295 inches.
Three Halfpence.	Three.	3,443 ,,
Twopence.	Four.	4,591 ,,

2d. No publication, or portion thereof, can pass through the post unless the impressed stamp which it bears be a stamp of the value at least of one penny.

3d. The title and date of the publication must be printed at the top of every page.

4th. The publication must be folded in such a manner that the whole of the stamp or stamps, denoting the full duty, shall be exposed to view, and be distinctly visible on the outside; except that where there are more than two publications in the same cover, it is considered sufficient if the stamps be so arranged that they can readily be examined. If this rule be infringed, a postage of one penny is charged in addition to any other postage to which the publication, if properly folded, would be liable.

5th. The publication must not be printed on pasteboard or cardboard, or on two or more thicknesses of paper pasted together; nor must any pasteboard, cardboard, or such pasted paper, be sent with it as a back or cover thereto, or otherwise.

6th. It must be posted within fifteen days from the printed date of issue.

7th. It must have either no cover or a cover open at the ends; otherwise it is charged as an unpaid letter.

8th. It must not contain any enclosure. If it do, the enclosure is taken out and charged as an unpaid letter, together with an additional rate of one penny.

9th. It must have no writing or other mark thereon but the name and address of the person to whom it is sent; nor anything on the cover but such name and address, the printed title of the publication, and the printed name and address of the publisher or vendor who sends it. Thus if a newspaper, franked by a newspaper stamp, after having had the address of one person written upon the paper itself, be sent to another person, the first address must be cut off; obliteration not being sufficient. For any breach of this rule, an additional postage of 2*d.* is charged.

10th. If the publication be addressed to any person within the free delivery of the place where it is posted, it becomes liable to a postage of 1*d.*, which must be prepaid by affixing a postage stamp. If this be not done, an additional postage of 2*d.* is charged.

11th. If the 1st, 2nd, 3rd, 5th, or 6th regulations be infringed, the publication is charged as an unpaid book-packet, with the double book postage.

12th. It is suggested that every publication should have a notice to purchasers conspicuously printed, pointing out the necessity of exposing the stamp or stamps to view whenever the publication is sent through the post.

13th. Stamped publications can also be forwarded under the regulations of the Book Post; but when so sent the impressed stamp does not count as any part of the postage.

NEWSPAPERS SENT ABROAD.

The Colonial and Foreign newspaper rates are set forth in the Table of Colonial and Foreign Postage, commencing at page 64, and are applicable only to such publications as have been registered at the General Post Office for transmission abroad. These publications are subject to the restrictions contained in the 3rd, 5th, 6th, 7th, 8th, and 9th of the foregoing regulations. *The postage must be prepaid in postage labels.** *An impressed stamp on a newspaper addressed to a place abroad does not count as any part of the postage.* The publications sent abroad under these arrangements are newspapers, magazines, prices current, market reports, &c., published at intervals not exceeding thirty-one days. When the privilege of transmission abroad is desired for a publication, the publisher should make application to the Secretary of the Post Office, sending a copy of the publication. Unregistered periodicals, whether newspapers or other, cannot be sent abroad at any rates lower than those applicable to books, &c.

PARLIAMENTARY PROCEEDINGS.

Printed proceedings of the Imperial Parliament, sent without covers, or in covers open at the ends, may circulate within the United Kingdom at the rate of one penny for every quarter of a pound or fraction of a quarter of a pound.

The words Parliamentary Proceedings must be written or printed on the cover of the packet: otherwise, it is treated as an ordinary Book Packet.

Prepayment, when the circulation is within the United Kingdom, is optional; and if it be made in part, the simple difference only is charged.

Parliamentary proceedings may be sent, under the Book Post privilege, to all the Colonies, and to those Foreign States between which and this country there is a book post.

INLAND BOOK POST

The following are the regulations of the Inland Book Post:—

1st. The postage is 1*d.* for every quarter of a pound or fraction of a quarter of a pound.

2nd. The postage must be prepaid by means of postage stamps affixed outside the packet or its cover. If the whole postage be not thus prepaid the packet is treated in the manner described in Section 9.

---

* Newspapers posted unpaid are retained at the Returned Letter Office for one week, and then, if the postage still remain unpaid, are destroyed.

3rd. Every packet must be sent either without a cover, or in a cover open at the ends or sides; so as to admit of the enclosures being removed for examination. For the greater security of its contents, the packet may be tied at the ends with string; but in such case, the Postmaster is authorized to cut the string, although if he do so he must again tie up the packet.

4th. A book-packet may contain any number of separate books or other publications (including printed or lithographed letters), photographs (when not on glass or in cases containing glass), prints, or maps, and any quantity of paper, parchment, or vellum; and the books or other publications, prints, maps, &c., may be either printed, written, engraved, lithographed, or plain, or any mixture of these; but no printed matter or prints can go, except such as may be printed on paper, parchment, or vellum. Further, all legitimate binding, mounting, or covering of a book, &c., or of a portion thereof, is allowed whether such binding, &c., be loose or attached; as also rollers in the case of prints or maps, markers (whether of paper or otherwise) in the case of books, and, in short, whatever is necessary for the safe transmission of such articles, or usually appertains thereto; but the binding &c., must not be sent as a separate packet, nor can patterns or books of patterns (unless these consist merely of *paper*) be permitted.

5th. No book packet may contain anything which is sealed, or otherwise closed against inspection; nor must there be any letter, nor any communication of the nature of a letter, whether separate or otherwise, unless the whole of such letter or communication be printed. Entries, however, merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter. Indeed, as respects the name and address of the sender, writing is not only permitted, but recommended; so that if the cover come off, or for any other reason the packet cannot be forwarded, it may be returned.

6th. No book packet must exceed two feet in length, or one foot in width or depth; and if any such packet be presented at a post office, it cannot be received.

7th. Any packet which is not open at the ends or sides, or has any letter or communication of the nature of a letter written in it, or upon its cover, is charged with the "unpaid" letter postage.

8th. If a packet be found to contain any letter not wholly printed, whether closed or open, or any enclosure sealed or otherwise closed against inspection, or any other unauthorised enclosure, the letter or enclosure is taken out and forwarded to the address on the packet, charged with the full postage, as an unpaid letter, together with an additional rate, and the remainder of the packet, if duly prepaid with stamps, is then forwarded to its address.

9th. If a packet be not sufficiently prepaid with stamps, but nevertheless bear a stamp of the value of one rate, it is forwarded, charged with the deficient book postage, together with an additional rate; but any packet which bears no postage stamp is charged with double the book postage.

10th. In every case in which the postage chargeable under these regulations is greater than the letter rate, the latter postage is substituted.

COLONIAL AND FOREIGN BOOK POST.

Except that the rates of postage are higher, books can be sent to all British colonies, and to those foreign countries indicated in the table of Colonial and Foreign Postage at page 64, on the same conditions as those of the Inland Book Post.

INLAND PATTERN POST.

The following are the rules of the Inland Pattern and Sample Post:—

1st. The postage is 2*d.* for every quarter of a pound or fraction of a quarter of a pound.

2nd. No packet of patterns or samples must exceed 24 oz. in weight. Any packet above that weight is sent to the Returned Letter Branch.

3rd. The postage must be prepaid by means of postage stamps.

4th. There must be no writing or printing on the packet or its cover in addition to the address of the person for whom the packet is intended, except the address of the sender, a trade mark and numbers, and the prices of the articles: otherwise, the packet is treated as a letter.

5th. There must be no enclosure other than the samples themselves. The particulars, which are allowed to be furnished under the preceding rule, must in all cases be given, not on loose pieces of paper, but on small labels attached to the samples or the bags containing them. Any loose enclosure is taken out and forwarded to the address on the packet, charged with the full postage as an unpaid letter, together with an additional rate of a penny.

6th. The patterns or samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, &c., may be enclosed in boxes, or in bags of linen, or other material, fastened in such a manner that they may be readily opened; or in bags entirely closed, provided that they are transparent, so that the Officers of the Department may be able to satisfy themselves as to the nature of the contents. If this rule be infringed, the packet is treated as a letter.

7th. If a packet of patterns or samples be posted altogether unpaid, it is charged with double the postage which should have been prepaid. If a portion of the postage be prepaid, even although only a penny stamp be affixed, the packet is charged with the amount of the deficiency, together with an additional rate of twopence.

8th. In order to prevent any interruption to the regular transmission of letters, a packet of patterns or samples may, when it is necessary, be kept back by any Head Postmaster for 24 hours beyond the time when, in the ordinary course, it would be forwarded.

9th. The rule which forbids the transmission through the post of

any article which might injure the contents of the mail bags or the Officers of the Post Office, is so far relaxed as to permit the transmission of scissors, knives, razors, forks, steel pens, nails, keys, watch machinery, metal tubing, pieces of metal or ore, and such like, as samples, provided that they be packed and guarded in so secure a manner as to afford complete protection to the contents of the mail bags and the Officers of the Post Office, while at the same time the samples may be easily examined. If any packet containing such articles as these be posted, which is found not to be sufficiently guarded, it is stopped, and a notice of its detention is sent to the person to whom it is addressed or to the sender, who may then obtain it upon personal application; but the packet is charged with a fine equal in amount to the postage to which it was liable as a packet of patterns.

10th. In every case in which the postage chargeable under these regulations is greater than the letter rate, the latter postage is substituted.

COLONIAL AND FOREIGN PATTERN POST.

Patterns and samples can be sent at the rates inserted in the Table of Colonial and Foreign Postage to such colonies and foreign countries as are marked in that Table with the letter "P." The conditions in these cases are for the most part the same as in the case of the Inland Pattern and Sample Post, the following being the only important exceptions:—

1st. A packet of patterns or samples sent to Portugal, Madeira, the Azores, Cape de Verds, France, or to Turkey, Syria, or Egypt, by French packet, must not exceed 18 inches in length, width, or depth; a packet to any other place abroad must not exceed 24 inches in length or 12 inches in breadth or depth.

2nd. A packet of patterns or samples sent to Germany, Russia, or Belgium, or to any place viâ Austria, must not exceed 8 ounces in weight, and the weight of a packet for Portugal, Madeira, the Azores, or Cape de Verds is limited to one pound.

3rd. None of the articles named in rule 9, above, may be sent as patterns or samples to any place abroad, except Germany, Belgium, Denmark, Sweden, Norway, Portugal, Madeira, the Azores, Cape de Verds, and the British colonies, and not to these places when addressed "viâ France."

4th. Bags entirely closed, even though they be transparent, must not be used for the transmission of seeds to foreign countries; and samples of intrinsic value must not be sent to foreign countries.

REGISTRATION.

By the prepayment of a fee of 4*d.* any letter, newspaper, book, or other packet on which the postage has been prepaid in stamps, may be registered to any place in the United Kingdom, the British Colonies, Italy, or the German States. To other Foreign Countries (with a few exceptions where there is no arrangement whatever for registration), only letters and packets prepaid at the letter rates can be registered.

The registration of a packet makes its transmission much more

secure; and the loss of a registered packet is a very rare occurrence. Nevertheless, by Act of Parliament, the Post Office is not responsible for the safe delivery of registered packets, though any officer who may neglect his duty on this point will be called to strict account. Sent in *unregistered* letters, valuable articles are exposed to risk; and the department cannot in any way undertake the safe conveyance of such packets. All inland letters, therefore, which unquestionably contain coin, even though they be posted without registration, are treated as registered, and charged on delivery with a double registration fee of 8*d.* in addition to the ordinary postage; and any such letters which cannot be registered in time to be forwarded by the mail for which they are posted are detained for the next despatch. As yet, however, this rule applies only to *inland* letters.

Every letter to be registered should be presented at the counter, and a receipt obtained for it, and should on no account be dropped into the letter-box. If, contrary to this rule, a letter marked "Registered" be dropped into the letter-box, it will, *if directed to any place in the United Kingdom*, be liable to a registration fee of 8*d.*, instead of the ordinary fee of 4*d.* A registered letter, if reposted as an ordinary letter with the word "*Registered*" unerased or erased in pencil only, will also be liable to a registration fee of 8*d.*

At all Post Offices, the latest time for posting registered letters on the payment of the ordinary fee is entered in the notice exhibited in the Office window; but, on payment of a late fee of 4*d.*, in addition to the ordinary registration fee, letters, whether inland, foreign, or colonial, may be registered after the hours specified, until the closing of the letter-box for each despatch (exclusive of the time during which late letters are received), or until the Office is closed for the night.

Registered letters must be prepaid as regards both postage and registration fee; and if the letter be inland, such prepayment must be by stamps.

No Letter Carrier, Rural Messenger, or other servant of the Post Office, is allowed to carry a letter for any person to be registered.

DELIVERY.

Letter Carriers and Rural Messengers are prohibited from distributing any letters, newspapers, &c., whether before beginning their rounds, whilst on their rounds, or after they may have completed them, except such as have passed through a Post Office. Nor are they allowed to receive any payment beyond the postage for the delivery or collection of any letter or newspaper, nor to deviate from the route laid down for them. The prohibition, however, from receiving payment in addition to the postage does not extend to Christmas gratuities.

No person living within the town free delivery, or within the limits of a rural post free delivery, unless he rent a private box, can claim to have his letters delivered at the office window if a delivery by Letter Carrier or a despatch by messenger is about to take place; but letters which arrive by a mail, after which there is no immediate delivery by Letter Carrier or messenger, may be obtained by any person on application at the office window, so long as the office is open for delivery.

In order to prevent the additional trouble which is sometimes caused by letters being directed to a Post Office, although for persons residing within a free delivery from such office but who have no private box, a Postmaster is authorized, when such letters arrive by a mail for which there is a delivery from house to house, to refuse to deliver them at the window (even though initials may be substituted for the name) and to send them out by the Letter Carriers; except such as are addressed to the military in barracks.

Any person can have a private box who is willing to pay the appointed fee. Where this fee goes to the Revenue, it is generally fixed at one guinea per annum to be paid in advance; and where it goes to the Postmaster, he may demand the same terms, though he may, at his option, take less. The same also, in most cases, are the terms for a private bag, except that, in addition, there is the cost of the bag itself, and a charge for conveyance, the maximum of the latter being half-a-guinea per annum, if the bag be conveyed by a Rural Messenger, and two guineas if by a contractor for a mail cart or other horse post. The weight of a private bag, when empty, is limited to one pound. As the service of a private bag may possibly delay the despatch of the general bag, none are allowed without the permission of the Surveyor.

MONEY ORDERS.

The public are recommended, when applying for Money Orders, to use printed "Application forms," which save time, and afford greater security than verbal messages against mistakes. These Forms are supplied gratuitously at all Money Order Offices. The Commission on Inland Money Orders is—

On sums not exceeding				£2,	3d.
Above £2	and	„	„	£5,	6d.
„ £5	„	„	„	£7,	9d.
„ £7	„	„	„	£10,	1/.

No order is allowed to contain a fractional part of a penny.

With the subjoined exceptions, no money order can be issued unless the applicant furnish, in full, the surname and at least the initial of one Christian name, both of the remitter, and the payee, together with the remitter's address:—

1st. If the remitter or payee be a peer or a bishop, his ordinary title is sufficient; and the usual designation of a firm is sufficient, except in the case of a company trading under a title which does not consist of the names of the persons composing it, as the "Carron Company."

2d. When the remitter notifies that the order is to be paid through a Bank, it is left to his option to give or withhold the name of the payee.

The remitter of an order may make that order payable ten days after date, provided he comply with the prescribed conditions.

When an order is paid through a bank it is sufficient that it be receipted (without regard to any discrepancy between the signature and the name in the advice, or to whether the receipt is given by the payee himself or by another person), and that it be presented (crossed

with the name of the receiving bank) by some person known to be in the employment of the bank.

The holder of a Money Order is always at liberty to direct, by crossing it, that the order be paid through a bank, even though its payment was not originally so restricted.

Money Orders do not require a receipt stamp.

Payment of an order issued, and payable in the United Kingdom, must be obtained before the end of the second calendar month after that in which it was issued (for instance, if issued in January, it must be paid before the end of March), otherwise the order becomes lapsed, and a new order will be necessary, for which a second commission will be charged. The period for payment of orders issued in the United Kingdom, and payable in any colony authorised to transact money order business, including Gibraltar, Malta, &c., is six months, and orders granted at those places on the United Kingdom are also payable during six months after that in which they were issued. If the order be not paid before the end of the twelfth calendar month after that in which it was issued, all claim to the money will be lost.

No application can be entertained for compensation for alleged injury from the non-payment of a money order at the expected time.

After once paying a money order, by whomsoever presented, the Office is not liable to any further claim.

To guard against any person, even if he obtain possession of a money order, fraudulently getting it cashed, the remitter is recommended—

1st. When he is well known to the payee, to sign the letter enclosing the order with his initials only.

2d. When this is not the case, either to make the order payable ten days after date, or to register the letter enclosing it, or to make the order payable through a bank.

3d. When it is not considered expedient to adopt either of these courses, to send the remitter's name (without a knowledge of which payment cannot be obtained) in a separate letter from that containing the money order, although this latter precaution is much less effective than either of the others.

Payment of an order cannot be demanded on the same day as that on which the order was issued.

In case of the miscarriage or loss of an Inland Money Order, a duplicate is granted on a written application (with the necessary particulars), and enclosing the amount of a second commission in postage stamps to the Controller of the Money Order Office of the kingdom where the original order was *issued;* and if it be desired to stop payment of an order a similar application must be made to the Controller of the Money Order Office of the kingdom in which the order is *payable.* If alteration in the name of the payee or remitter of an Inland Money Order should be required, application must be made by the remitter to the Postmaster of the office at which the order was issued, and a second commission must be paid. Should transfer of payment of an inland order from one office to another in the United Kingdom, or repayment of the amount of an order, be

required, an application enclosing the order must be made to the Postmaster at whose office the order is payable, who will transmit in exchange a new order payable at the place desired, but for a less sum than the original order by the amount of the second commission charged for the re-issue. Proper printed forms for making applications in all these cases may be obtained at any Money Order Office, and full instructions on the subject will be found printed at the back of the Money Order.

Money Orders are issued at all Money Order Offices in the United Kingdom of Great Britain and Ireland on Money Order Offices in Alexandria, Constantinople, Bahia, Buenos Ayres, Monte Video, Pernambuco, Rio Janeiro, Gibraltar, and Malta, at a charge equal to threefold the commission on Inland Money Orders, and on Money Order Offices in the undermentioned Colonies, at a charge equal to fourfold such commission :—

POST OFFICE SAVINGS BANKS.

1. More than 3,000 Post Office Savings Banks are open daily for the receipt and payment of money, during the hours appointed for Money Order business.

2. Interest at the rate of £2, 10s. per cent. is given on the money deposited in them.

3. Depositors in them have direct Government security for the prompt repayment of their money.

4. A Depositor in any one of the Post Office Banks can continue his deposits at any other of such Banks, without notice or change of book, and can withdraw his money at that Post Office Bank which is most convenient to him.

5. The strictest secrecy is observed with respect to the names of Depositors in Post Office Banks, and the amounts of their deposits.

6. If a Depositor in any legally established Savings Bank wishes to place his money in a Post Office Savings Bank, he should apply to the Trustees of the old Savings Bank for a Certificate of Transfer (in the form prescribed by the 10th section of the Act 24 Victoria, cap. 14), and should pay the Certificate into any Post Office Bank as if it were a cheque. By adopting this course, the Depositor will avoid trouble and the risk of carrying cash from one Bank to the other.

7. Married women may deposit money in the Post Office Savings Bank, and money so deposited will be repaid to the Depositor, unless her husband gives notice, in writing, of marriage, and claims payment of the deposits.

8. Money may be deposited by, or on behalf of, Minors. Depositors over seven years of age are treated as persons of full age, but Minors under seven years of age cannot withdraw their deposits until after they have reached the age of seven.

9. Friendly Societies, duly certified by the Registrar of Friendly Societies, may deposit their funds, without limitation of amount, in the Post Office Savings Bank, but a copy of their Rules must previously be sent to the Postmaster-General.

10. Charitable Societies and Penny Banks may also deposit their funds, but a copy of their Rules must first be sent to the Postmaster-General. Especial aid is given to Penny Banks established in connection with the Post Office Banks.

11. Applications to the Chief Office on the business of Post Office Savings Banks, and the replies sent thereto, are free from charge for postage.

12. If any additional information be required, with respect to Post Office Savings Banks, it can be obtained at any Post Office, or by application to the Controller, Savings Bank Department, General Post Office, London, E.C.

GOVERNMENT LIFE INSURANCE AND ANNUITY OFFICE.

The Postmaster-General is empowered, under the Act 27 and 28 Victoria, cap. 43, to insure the lives of persons of either sex, between the ages of 16 and 60, for not less than £20 or more than £100. He is also empowered under the same Act to grant Immediate or Deferred Annuities of not more than £50 on the lives of persons of either sex, and of the age of 10 years and upwards. The persons whose lives are insured, or to whom Annuities are granted, by the Postmaster-General, have direct Government security for the payment of the money at the proper time.

The Premiums to be charged for the insurance of lives vary with the ages of the persons whose lives are to be insured, and with the mode in which they are to be paid.

Tables of the Premiums to be charged for the insurance of lives; for the grant of Immediate Annuities; for the grant of Deferred Annuities or Deferred Monthly Allowances, without return of purchase money; and for the grant of Deferred Annuities or Deferred Monthly Allowances, with return of purchase money,—have been printed, and may be seen at the Post Office here, or at any of the other Post Offices which have been opened for the receipt of proposals.

EXPLANATIONS RELATIVE TO THE FOREGOING TABLE, AND MISCELLANEOUS REGULATIONS.

When a letter addressed to go by a route that requires Prepayment, is posted unpaid, and there is some other route where Prepayment is not required, it is forwarded by that route; but if there be none, it is sent to the Returned Letter Office, to go back to the writer.

The letter *a* prefixed to any division shows that the postage there entered does not carry the letter from the place where it is posted in the United Kingdom entirely free to its place of destination, but that it is liable to an *additional* charge upon delivery.

Periodical works not of daily publication, issued in the shape of pamphlets, may be sent to the United States, California, and Oregon, by packet, and to Holland viâ Belgium and by private ship (to which latter country Parliamentary Proceedings may also be sent), at the following rates:—Not exceeding 2 oz., 1*d*; above 2 oz. but not exceeding 3 oz., 6*d*; above 3 oz. but not exceeding 4 oz., 8*d*; with an addition of 2*d* for every additional ounce up to 16 ounces, above which weight the privilege does not extend, *except as regards Parliamentary Proceedings to Holland, the weight of which is unlimited.* At the same rate of postage, any pamphlet not weighing more than 8 oz. (even though it be not a periodical publication) may be sent to the United States, California, and Oregon. This postage is only the British portion, a further sum being charged on delivery. The periodical works or pamphlets must always be sent in a cover open at the ends (not more than one being sent in a single cover), and the postage must be prepaid. Other printed papers or books (except those specified above), addressed to the places above named, are liable to letter rate of postage. There must be no writing or other marks upon such periodical works, pamphlets, &c., or upon the covers, except the names and addresses of the persons to whom they are sent; nor upon the covers must there be any printing except the names and addresses of the persons to whom they are sent and the names and addresses of the senders. Any other writing, &c., will render the packets liable to letter rates of postage.

Books sent to Spain and the Canary Islands must be unbound; and no prints, music, maps, or drawings are allowed, unless they form part of the publication with which they are sent—postage, 4 oz. 4*d*.

Books for China can be sent to Amoy, Canton, Foo-Chow-Foo, Hong Kong, Ningpo, Shanghai, Swatow, and Whampoa only—postage *via* Marseilles, 4 oz. 6*d*., *via* Southampton, 4 oz. 4*d*. To British Columbia and Vancouver's Island books can be sent by private ship only—postage, 4 oz. 3*d*.

To those Countries mentioned in the Table of Colonial and Foreign Postage, to which a * is prefixed, no packet of patterns must exceed 8 ounces.

LETTERS FOR OFFICERS, NON-COMMISSIONED OFFICERS, SOLDIERS, AND SEAMEN,

In Her Majesty's Service, Serving Abroad.

Non-commissioned officers, soldiers, and seamen, in Her Majesty's Service, whether serving on sea or land, or in a British Possession or Foreign Country, as also enrolled pensioners in Canada, can send and receive letters by Packet or Man-of-War, for a postage of a 1*d*, which must be prepaid; but, if any such letters have to pass through a Foreign Country, they are subject, in addition, to the Foreign postage, whatever that may be.

Letters addressed to, or sent by, a commissioned officer, in the Navy or in the Royal Marines), or a warrant officer, employed on board any of Her Majesty's Ships on a Colonial or Foreign Station, are subject to a uniform British rate of 6*d* per half-ounce each, which must be paid in advance; but, if any such letters have to pass through a Foreign Country, they are also subject to the Foreign postage, in addition to the British rate of 6*d*.

The following table shows the combined British and Foreign postage on letters sent to or received from, officers, non-commissioned officers, soldiers, &c., serving abroad:—

To or from—	Commissioned Officers.		Non-commissioned Officers & Privates.	
	Not Exceeding ½ oz.	Not Exceeding ½ oz.	Not Exceeding ½ oz.	Not Exceeding ½ oz.

Chili, Peru, or any other place in the Pacific, *via Panama*		0s 7d		0s 2d

Canada, *via United States*....		0s 8d		0s 3d
Brazil, *by French Packet*	0s 8d	1s 4d		

If the letter be posted in the United Kingdom for a place abroad, unpaid or insufficiently paid, it will (if not exceeding half an ounce in weight) be detained and returned to the writer for payment of the postage; but if it exceed half an ounce, it will be treated as an ordinary letter, and charged the full postage.

The Post Office is not responsible for any injury which books or other articles forwarded by post may sustain; and the public, there-

fore, should not employ the Post Office for the conveyance of anything likely to suffer injury, unless such things be sufficiently protected. Neither is the Post Office responsible for any loss or inconvenience which may arise from the mis-sending, mis-delivery, loss, &c., of a letter or any other postal packet.

With the following exceptions, no Inland or Foreign letter or packet can be forwarded by the Post which is more than two feet in length, or one foot in breadth or depth. The exceptions are:—

1st. Packets to or from any of the Government Offices or departments, or Public Officers.

2nd. Petitions or addresses to the Queen, whether directed to Her Majesty, or forwarded to any member of either House of Parliament.

3rd. Petitions to either House of Parliament, forwarded to any member of either House.

4th. Printed Parliamentary proceedings.

No information can be given respecting letters which pass through a Post Office, except to the persons to whom they are addressed; and in no other way is official information of a private character allowed to be made public.

Postmasters are not allowed to return any letter or other packet to the writer or sender or to any one else, or to delay forwarding it to its destination according to the address, even though a request to such an effect be written thereon.

If a letter be forwarded under cover to any Postmaster with a request that he will re-post it at his office, such request cannot be complied with; and the letter and application respecting it are sent to the Returned Letter Office.

Except where the Surveyor may deem a longer interval necessary, late letters*, &c., are received till within five minutes of the despatch of the mails; although no office is kept open merely for this purpose after ten o'clock at night.

No late letters, &c. (except Government letters), are forwarded by the mail preparing for despatch unless prepaid, and that by stamps, so as to include both the ordinary postage and the late letter fee; but in the case of letters directed to any department of Government, it is sufficient to prepay the fee.

With the exception of Government letters, every re-directed letter or other postal packet is liable to an additional postage (at the prepaid rate) unless the re-direction be made by an Officer of the Post Office, to a place within the same free delivery as the original address. Thus, on a paid or unpaid letter weighing not more than half an ounce, re-directed either by an officer of the Post Office or by any one else to a different postal district in the United Kingdom, or from one place to another in the same postal district, provided these places be not in the same free delivery, an additional postage is levied of one penny; or, if the weight be more than half an ounce but does not exceed an ounce, of twopence; and so on. Upon a book thus re-directed to any other postal delivery in the United Kingdom, and weighing not more than four ounces, an ad-

* "Late Letters" are such as are posted after the ordinary time, and which cannot therefore be sent forward by the mail then in preparation, unless extra payment be made.

ditional postage of one penny is levied, or, if the book weigh more than four ounces but not more than eight ounces, an additional postage of twopence; and so on.

During the time the office is open on Sunday (viz., from 9 to 10 in the morning) the public are allowed to prepay foreign and colonial letters, to purchase postage stamps, and to have letters registered; and all other duties are performed as usual, except Money Order, Savings Bank, Insurance, and Annuity business, which, on that day, is wholly suspended.

At no provincial town in England or Ireland is there more than one delivery on the Sunday, Christmas day, or Good Friday; nor in Scotland, on Sunday or the Sacramental Fast Days; and any person is at liberty to prevent even this, so far as relates to himself, as he can have his letters, &c., retained in the Post Office on Sunday by addressing to the Postmaster a written request, duly signed to that effect.

No Postmaster is bound to give change, or is authorized to demand change; and when money is paid at a Post Office, whether as change or otherwise, no question as to its right amount, goodness, or weight, can be entertained after it has been removed from the counter.

Except as regards Foreign and Colonial letters about to be prepaid in money, a Postmaster is not bound to weigh any letters or other packets for the public, though he may do so if his duty be not thereby impeded.

Postmasters are instructed not to receive any letter, &c., which there is good reason to believe contains anything likely to injure the contents of the mail bag or the person of any officer of the Post Office. If such a letter, &c., be posted without the Postmaster's knowledge, or, if at any time before its despatch he should discover any letter, &c., of the above description, he is directed not to forward it, but to report the case, with the address of the letter, &c., to the Secretary. The following are examples of the articles referred to:—

A glass bottle, or glass in any form; razors, scissors, needles, knives, forks, or other sharp instruments; leeches, game, fish, meat, fruit, or vegetables; bladders or other vessels containing liquids; gunpowder, lucifer matches, or anything which is explosive or combustible.—See Rule 9th, page 57.

When the reason for the non-delivery of a letter, &c., in the country is that the person to whom it is addressed is deceased, the letter is sent, as soon as practicable, to the Returned Letter Office, as are all letters intended for ships which have sailed before the arrival of such letters at the port of departure. When an inland letter is refused, it is retained by the provincial Postmaster for one day only before being sent to the Returned Letter Office, unless the refusal be conditional, in which case the letter is kept for three days, as are all colonial or foreign letters when refused, and letters, whether inland or foreign, addressed to persons not known, or gone away. When a letter addressed to a Post Office is not called for, it is retained by the Postmaster one month; except in the case of letters at seaports addressed to persons on board ships expected to arrive at such ports, which letters are kept three months. London District letters and letters from the country addressed to London

and its neighbourhood, for persons deceased or gone away, or which have been refused, are sent to the Returned Letter Office on the day after the attempt to deliver them. All town and provincial letters which contain the name and address of the senders are returned to them the same day they reach the Returned Letter Office. Colonial and foreign letters are, with a few exceptions, returned in periods varying from one week to two months.

WARM CLIMATES.

The practice of sealing letters passing to and from the *East* and *West Indies*, and other countries with hot climates, with wax (except such as is specially prepared), is attended with much inconvenience, and frequently with serious injury, not only to the letters so sealed, but to the other letters in the mail, from the melting of the wax and adhesion of the letters to each other. The public are, therefore, recommended in all such cases to use either wafers or gum, and to advise their correspondents in the countries referred to to do the same.

PRUSSIA AND THE GERMAN POSTAL UNION GENERALLY.

According to the regulations of the German Postal Union, no letter exceeding 50 grammes (a little more than 1½ oz.) in weight, and containing any other enclosure than paper, can be allowed to circulate by the Post. Any letters, therefore, forwarded in the Mail to Prussia above that weight, and containing any other enclosure than paper, will be liable, on their arrival at the Prussian frontier, to be stopped and sent to the Custom-House for delivery as *freight*.

THE SOCIETY offers such a safe and profitable means of accumulating a sum of money year by year as cannot be obtained in any other way. Members may join at any time. The Shares are £25 each, and are paid by fortnightly instalments of One Shilling per Share, or in larger sums if desired. All the Funds are lent on good Heritable securities.

The Society will receive Loans or Deposits of £5 and upwards (repayable on one month's notice) at such rates of interest as may be agreed on; payable half-yearly. Lenders have the security of the Society's Funds in addition to the heritable securities held by the Society, and have thus a better security than ordinary lenders on Property.

Advances are made by the Society to enable Members to build or purchase Dwelling-Houses, or other Heritable Property. The repayments necessary to clear off the loan and interest would not much exceed the rent. Bonds to, and Discharges by, the Society are exempt from Stamp Duty.

The Manager, the Surveyor, or the Solicitor, will at all times give information as to the nature and working of the Society.

CAUTION! EXHIBITION FIREWORKS.

Being a different class of Goods to Shop work, the following CAUTION is requisite. There are *Toy-dealers* and *Parties* who merely deal in Fancy Toy Fireworks who have the *presumption* to solicit orders for Displays (and even term themselves Artistes), who have really no practical knowledge of the art, or even the slightest particle of Machinery or Apparatus for the same. Therefore, Mr T. C. Barlow would advise those gentlemen who contemplate getting up an Exhibition to commemorate any event, to demand *Designs* of the set Devices, the size of each, and a specification of the Aerial part of the Display, or they will merely get a quantity of small Rockets, Squibs, Jack-in-Boxes, Roman Candles, &c., and such small works, which are only fit for the amusement of juveniles.

THE

"HOWE" SEWING MACHINES.

THE "HOWE" Machine has long been recognised as the "chief" amongst the heavier class of Sewing Machines. This is due to various causes—the steadiness of its motion, simplicity and thoroughness of construction, reliability of the tensions, ease of operation, and the comparative noiselessness of its movement. These have long combined to render the "HOWE" Machine famous as the Machine best adapted to all purposes of heavy sewing, and specially suited for Tailors, Boot and Shoe Makers, Saddlers, Hat and Cap Makers, Staymakers, Manufacturers of India-rubber and Oil-skin Clothing, &c. &c. It is a well attested fact, that for leather work it has no equal—the work being neater, quicker, and better done than with any other Machine, and no possibility of cutting the material, which is a danger experienced in the use of most heavy Machines.

All the parts of the Elias Howe Machine at all liable to wear are case-hardened, so that they will run for years without repairs, and every improvement reducing the friction, and making them capable of longer wear, has now been added, so that, in their present shape, they are as near perfection as it is possible for a Machine made by human skill to be.

Duplicate parts of Machines kept constantly on hand in case of accidents, and can be fitted to Machines at any time.

The many years these Machines have been before the Public is a perfectly safe and sufficient guarantee of their unapproachable merits. For all kinds of cloth and leather work, first-class boot-closers in all parts of the country invariably use them, and no Machine is so admirably adapted for fine and heavy tailoring, as a smaller needle can be used than with other Machines, and the tension on the upper and under threads is more reliable; and the construction of the Machine being exceeding simple, there is less wear and tear.

H. HENDERSON & SONS,

LADYBANK LEATHER WORKS,

DUNDEE.

THE

Florence Family Sewing Machine.

THE FLORENCE approaches, as nearly as possible, to the perfection of what a Family Sewing Machine should be; it combines within itself simplicity and completeness of construction, with beauty, speed, and noiselessness in action.

ITS DISTINCTIVE MERITS are, that it makes FOUR KINDS OF STITCHES with as great ease and rapidity as ordinary Machines make one, and by simpler mechanism—an advantage which cannot be over-rated; and by which the difficulty of satisfactorily sewing every description of fabric with the same Machine is entirely obviated; and by these means, AND THE ADDITION OF A REVERSIBLE FEED, the operator is enabled, by simply turning a thumb-screw, to run the work either to the right or left, to stay any part of the seam, or fasten the ends of seams, without turning the fabric. *It contains in itself capabilities of sewing a lock-stitch, a double lock-stitch, a knot-stitch, and a double knot-stitch instantaneously, without any alteration of machinery.*

THE FLORENCE HEMS, FELLS, BINDS, GATHERS, BRAIDS, QUILTS, and GATHERS and SEWS on a ruffle at the same time.

We claim for *The Florence* the following advantages over any and all Sewing Machines:—

Changing the length of stitch, and from one kind of stitch to another while the Machine is in motion. *Every stitch is perfect in itself*, making the seam secure and uniform. It is almost *noiseless*, and can be used where quiet is necessary. Its motions are all *positive;* there are no springs to get out of order, and its simplicity enables the most inexperienced to operate it. *It will not oil the dress* of the operator, as all the machinery is on the top of the table. *It is the most rapid sewer in the world;* making five stitches to each revolution. *Its stitch is the wonder of all*, because of its combined *elasticity, strength, and beauty. It does the heaviest or finest work* with equal facility, *without change of tension or machinery.* Every Machine has a patent hemmer attached, enabling the operator to turn *any width of hem desired.* The needle is more easily adjusted than in any other Machine. It will sew across the heaviest seams, or from one to more thicknesses of cloth, without change of tension or breaking of thread. To avoid the *strain on the eyes, bent posture, close application* and *fatiguing care*, heretofore necessary on a large proportion of work done on Sewing Machines, we now furnish each Machine with "*Barnum's Self-Sewer*," which *guides the work itself*, and is of incalculable value, especially to inexperienced operators.

These Machines may be inspected, and all necessary information obtained, of the

"For family sewing in all its varieties, the work of this simple Machine is found perfectly strong and reliable; its hemming is done on the right side, to any width, and is neat and accurate beyond comparison. Felling, also, is readily performed by it, and we cannot see any requisite for family purposes which it cannot be made to meet more readily than any Sewing Machine in use. It is simple and easy to work, cannot be run in the wrong direction, nor is there the slightest difficulty in changing the needle; it is not liable to get out of order, and combines cheapness with its other merits."

TESTIMONIALS.

From ALEXANDER STUART, Esq., Rosebank House.

Dundee, Feb. 4, 1865.

MR ALEX. HENRY.—Dear Sir,—I have great pleasure in expressing my entire satisfaction with the WILLCOX & GIBBS SEWING MACHINE I got from you in May last. I was not a little puzzled what Machine to decide upon, as so many different kinds are announced to be the best, but I felt assured from the experience you have had in Sewing Machines you would *candidly advise me what was really the best.* You said *emphatically* you could thoroughly recommend WILLCOX & GIBBS; as of all the Machines you ever had it was undoubtedly the best for family use. I can assure you my confidence has not been misplaced, for the Machine speaks for itself, and exceeds by far my most sanguine expectations. It is simple, easily managed, has never got the least deranged, and the first needle is still in it. Mrs Stuart takes great delight in it, as it makes the family sewing quite a pastime. Since we got our Machine, several of our friends have likewise got a WILLCOX & GIBBS, and in every case with the same satisfactory results. You are at perfect liberty to make whatever use of this you think proper.—I am, dear Sir, yours most truly,

ALEX. STUART.

From Mrs EDWARD PARKER, the Cliff, near Newport, Fife.

January 13, 1865.

Mrs EDWARD PARKER feels great pleasure in expressing her warmest approval of Messrs WILLCOX & GIBBS SEWING MACHINE, *which she has used for five years*, and found *invaluable* for all kinds of family sewing.

SHIRTS.

THE Comforts of a really good Fitting SHIRT are allowed to be more estimable than any other part of a gentleman's attire; and the reason why some fit comfortably, and others the reverse, is here explained. A practical Shirt Cutter working on established rules produces the desired effect to a *certainty;* while a person of inexperience, having no rule, can never be sure of making two Shirts alike; hence, in the former case, comfort and satisfaction results, while in the latter the consequences are of the most varied and unpleasant character.

Till lately, it was thought by many that Shirts could be made by dressmakers, or, in fact by any needlewoman; but that idea, and its kindred old-fashioned notions of economy, are exploding in the sight of the well-cut, well-made Shirts here recommended.

It is now nearly twenty years since I began to study Shirt Cutting, and can point to the experience of a large business in that Department. I can, therefore, with perfect safety, assure the Public that the Shirts I produce are better Cut, more carefully Made, and invariably better Fitting, than those supplied by the bulk of professed Shirtmakers.

I keep an Assortment of Sizes and Qualities in Stock, dressed and ready for immediate use; but, when time permits, I recommend Gentlemen to get measured in the same way as they would for a Coat or Vest, when they may depend on Fit, Price, and Needlework being everything that can be desired.

HELP FOR WOMEN.

OUR sisters, and wives, and daughters, have, where the family is large, and a good stock of clothes is required, and the family exchequer is limited, a terrible amount of drudgery to endure. They have no time for reading, for attending lectures, for self-improvement. Very often they are denied the ordinary intercourse of society; oftimes many a mother in the middle ranks of life is little better than a slave. With the invention of the WHEELER & WILSON Machine, women are set free, free from the slavery of the gusset and band, free for the higher modes of life, and for the nobler purposes of creation.

O ! men, who think they're dear,
And buy them not for your wives,
O, have no fear of their wearing out,
They will last them all their lives !

Briton Medical and General Life Association—*(Continued.)*

THIS ASSOCIATION, ESTABLISHED IN 1854, originated, and has successfully carried out, a peculiar feature (now known as the Briton feature), whereby, without the payment of any additional Premium, *the Policies become payable to the Assured during his own lifetime*, or, in the event of his early death, to his family or other representatives. The Assured thus not only protects his family, but secures for himself the payment of the sum assured, which may then be conveniently applied in purchasing a considerable Annuity for himself, or for any other purposes.

2947 Policies issued in 1866, assuring nearly ONE MILLION Sterling.

INDISPUTABLE WHOLE-WORLD POLICIES.

The Policies of this Association are held indisputable after the Payment of Five Years' Premiums, but by a recent regulation Policies may be obtained which are indisputable from the date of their issue, and which contain unrestricted leave of travel and residence in all parts of the world.

BONUS YEAR.—The next declaration of profits in favour of the Assured will be at the termination of the current year. The last Bonus was equivalent to an average reversionary Bonus of 40 per cent. on the Premiums paid.

TABLE No. I. WITH PROFITS.—Premiums to assure £100 at Death or during Life (*vide* Example).

Age next Birthday.	Annual Premiums.	Age next Birthday.	Annual Premiums.	Age next Birthday.	Annual Premiums.	Age next Birthday.	Annual Premiums.
22	£2 0 4	29	£2 8 10	36	£2 19 3	43	£3 12 0
23	2 1 5	30	2 10 1	37	3 1 1	44	3 14 0
24	2 2 7	31	2 11 4	38	3 3 0	45	3 16 2

28	2 7 8	35	2 17 6	42	3 10 3	49	4 7 0

EXAMPLE.—A person aged 25 next birthday, assuring his Life for £100, would pay an Annual Premium of £2, 3s. 10d.; should he live and continue his payments, his share of Profits, at each periodical division, will be placed to the credit of his Policy, and be applied to the extinction of his last payments of Premiums, thereby converting the ordinary Policy into one payable in his lifetime, and yielding means of subsistence in old age.

The Premium on a Policy for £500 at the same age would be five times the above amount, namely, £19, 10s. 2d.

LIFE DEPARTMENT.

Upwards of 7000 Policies have been issued by this department, representing Assurances of more than

THREE MILLIONS AND A QUARTER.

SPECIAL BONUS NOTICE.

No part of future Profit has been anticipated, and New Entrants are at once placed on the best footing in assuring with this Company. INCREASED BONUSES HAVE BEEN DECLARED AT EVERY SUCCESSIVE INVESTIGATION, FORMING A CONCLUSIVE TESTIMONY TO THE SUCCESS OF THE COMPANY, AND A MARKED DIFFERENCE FROM THE EXPERIENCE OF OTHER OFFICES.

A larger share of the Profit Fund falls to the lot of Assurers "with Profits" than is usual in Mutual Societies, owing to the expenses of management being divided between the Fire and Life Departments, and the Profits of the Non-participating Branch being thrown into the General Life Fund.

Table I. (see Prospectus) has been prepared to suit the case of those who desire to secure a certain sum to their representatives at the smallest annual expense. Under this Table, at age 30, £1244, 9s. 9d. may be secured for the same premium as that charged by the Mutual Offices for £1000 only, or in other words, an immediate Bonus of about 25 per cent. on the sum assured may be obtained.

FIRE DEPARTMENT.

Nearly all classes of risk are insured by the Company, and at rates as low as are consistent with safety. Claims are adjusted with liberality, and settled with promptitude. *Losses by gas explosions, in property insured by the Company, admitted*, and property burnt by lightning paid for. All the advantages of the reduced duty given.

This COMPANY transacts every description of **LIFE** and **ANNUITY** Business, and the following are amongst the special

NATIONAL UNION—(Continued).

ADVANTAGES TO INSURERS:—

1. Policies effected upon the BONUS SCALE after a term of Years **become PAYABLE during LIFETIME.**

EXAMPLE.—A person Insuring his Life at the Age of 30 would pay an Annual Premium of £2, 8s. 11d. to secure the payment of £100 at death, whenever that event might occur. Should he continue his Payments until the Periodical Division of Profits, his share would then be applied to the conversion of his Policy into one determinable at a given age—say 70 years. At the next Division of Profits his share would be again applied to shorten the term to his 68 year, and all future Profits being similarly applied, would further shorten the period. Thus, a Policy effected sufficiently early in life would, by the accumulation of Profits, be Payable about the Age of 50 or 55.

2. **INDISPUTABILITY OF POLICIES** after they have been in force Three Years.

3. The granting of greater facilities for the continuance and **NON-FORFEITURE OF POLICIES.**

4. **Special Privileges to Ministers and Abstainers.**

Large Bonuses from Profits

Have been allocated and applied on a special system, highly favourable to the Policyholders, in securing to an unusual extent (over and above the original Sums Assured) the following

ADDITIONAL BENEFITS–

In Class A.—LARGE REDUCTION OF OUTLAY by the Policyholders; the required payments being only from 12s. 6d. to 15s. per £1 of the stipulated Premiums.

In Class B.—INCREASE of the SUM ASSURED to an unusually large extent, in the event of an average Life; or an equivalent in a CASH PAYMENT, or a LIFE ANNUITY.

A Provision for the Policyholder himself in his own Lifetime

Is thus obtained from the Profits alone, without any payment beyond the ordinary premium for the original Sum Assured, which remains intact for heirs or other purposes.

THE

SCOTTISH WIDOWS' FUND

The Largest MUTUAL Life Office in the World.

HEAD OFFICE:

No. 9 ST. ANDREW SQUARE, EDINBURGH.

THE LEADING FEATURE

of the Society is its **Mutual Principle**, which Secures to the Policyholders the Division of the whole Profits among themselves, without any deduction for Dividends to Shareholders, as in Life Assurance Companies of the Proprietary class. *This single circumstance retains for the Policyholders an Annual Sum equivalent to a* **substantial Bonus,** *which would otherwise* BE LOST TO THEM.

PROFITS REALISED

Up to Last Division on 31st December 1866.

PROFIT—1815 to 1845,	£708,968
PROFIT—1846 to 1852,	591,158
PROFIT—1853 to 1859,	724,117
PROFIT—1860 to 1866,	834,183
	£2,858,426

SINCE LAST DIVISION

Greatly increased Success has attended the Society's operations, as shown in the following comparative Results:—

	Results 1860.	Latest Results.
NEW ASSURANCES,	£380,305	**£1,236,000**
INVESTED FUNDS,	3,518,230	**4,371,995**
ANNUAL REVENUE,	412,767	**589,440**
INTEREST ON SECURITIES,	£4 p. cent.	**£4, 10s. 6d. p. c.**

The evidence contained in the above figures, of the attainment, during the last fifty years, of so large an amount of substantial prosperity for the **exclusive benefit of Policyholders,** fully justifies the conclusion that

In the Scottish Widows' Fund Life Assurance is conducted under the most favourable circumstances for the Assured.
